# Q: What is Remy Hair?

The highest-quality extensions, Brazilian and Indian human remy hair.

Remy hair still possesses the cuticle layer, which is the outermost part of the hair strand; it resembles shingles on a roof. All remy hair has the cuticle layer of the hair flowing in the same direction, flowing the way it would naturally. The cuticle layer is important when concerned with hair tangling, longevity of the use(up to one year),

and how well the hair shines. When the cuticle layer is intact and lying flat, the hair is capable of reflecting light, so that the hair shines

Q: How many pieces Hair for one head?

Normally 2packs are enought for a full head, at most 3packs.

You can always use the leftover hair later. If you are using hai over 18" long you might need another pack. If you are getting fusion or micro then you will need to consult your stylist

Q: Why are my hair extensions getting tangled?

Your Hair Extensions can tangle due to dryness, oil & dirt build-up, salt water, chlorine and not combing (wide tooth comb) out your hair daily.
